

KEYSTONE

KEYSTONE ANILINE CORPORATION

Keyplast Granite Effect Colorants

Keystone Aniline Corporation features several lines of specialty colorants including its Keyplast Granite special effect fibers. These Rayon fibers are designed to give a textured effect to a variety of substrates. They can be used to add a natural or distinctive look to paper stock, add a beautiful textured look to coatings, casting resins, and a variety of plastics, or as a level of security in legal or financial documents.

The Keyplast Granite fibers are available in a range of colors including the classic Granite MPC Black which has excellent processing characteristics and is safe to use for food contact applications under 21 CFR 178.3297.

Contact your Keystone Sales Representative for more information on any of our Keyplast Granite effect colorants.

Product Name	Product Code	Denier	Length

Keyplast Granite Dark Green	430-752-50	3	0.03"

* Approved for food contact under 21 CFR Sec. 178.3297

KEYPLAST GRANITE PLUS

Keystone has developed a custom line of effect colorants with improved fastness properties. The same Rayon fiber available in its original Keyplast Granite line can now be manufactured with pigments offering improved heat and light stability over any previously colored material available. In addition, many of these colors are also available with food-contact approval. Keystone can provide these fibers in a range of sizes and can also custom match most colors. The Granite Plus line has minimum volume requirements, so please contact your local sales representative for further details.

PRODUCT SPECIFICATIONS

Denier — This is the property which determines the thickness of the fiber. The higher the value the thicker the fiber. The standard denier is 3 except where noted. Available denier range is 3, 5, 8, 18, and 25.

Length — The length, in inches, to which the fiber is cut. The tolerance is +/- 0.005" of the specified value. The fibers can be cut from 0.015" to 0.25". A small denier at a long length is generally not recommended. Contact your Keystone Sales Representative for further information.

Keyplast Granite Effect Colorants

- In addition to supplying the most comprehensive line of colorants available, at **Keystone Aniline Corporation** we are committed to providing our customers with the best technical information available. Call **1-800-522-4DYE** for samples or technical assistance.
